Scion Clean Face Linear Series

Modern Style Made Simple

The SimpliFire Scion fireplace provides the warmth and coziness of a fireplace without the need for gas lines or venting. Elevated style shines through with the sleek and modern design – no mesh screens or visible heat vents, a multitude of flame and ember bed lighting themes, and the ability to bring finishing materials right up to the edge of the fireplace for a flush look. Best of all, you can safely place a TV or artwork directly above the fireplace.

The Scion is not only designed for style, but also for comfort—the LED accent lighting creates warmth and ambiance and the flames can be used with or without heat for year-round enjoyment. Plus, it has the convenience of an intuitive, multi-function remote with thermostat.

Ideal for the bedroom, condominium, or any other place where a gas fireplace can't typically go, the Scion linear fireplace by SimpliFire really is "Fire Made Simple."

SimpliFire™

Fourteen ember bed colors

The Scion's ember bed is lit with the glow from long-lasting LED lights and provides 13 individual color options as well as the option to continuously rotate through all the colors.

Clear crystals

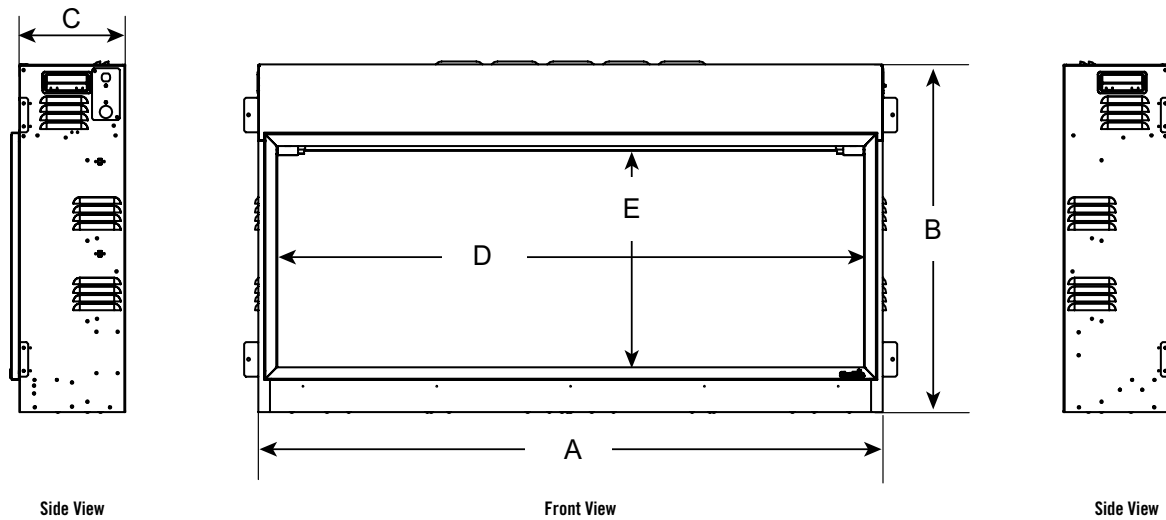

Driftwood logs

Multiple media options come standard

Clear crystal media and driftwood logs with glowing embers come standard for the look you want. Downward accent lighting that matches the flame theme highlights the ember bed for added ambiance.
